Ivan Kiryushov

Lead BIM Solutions Engineer | AI & Automation Architect
Transforming data chaos into systematic engineering tools

📍 Global (Relocation-ready) | 📱 Telegram: @bimivan | 🌐 Portfolio: kiryushov.bim))

🎯 PROFILE

Automation expert for engineering production with a core focus on **AI integration** and **systems architecture**. 8 years in BIM, spanning from 70+ story skyscraper coordination to building enterprise-grade data management ecosystems. Specialized in transforming BIM departments from "service cost centers" into high-efficiency R&D hubs.

🛠️ TECHNICAL STACK

- **AI & ML**: RAG Systems, LLM Orchestration (OpenAI/Anthropic), Vector DB, Prompt Engineering, Python (Aiogram).
- **Automation**: Revit API, Python, Dynamo, Webhooks, Meta API, Jira Service Desk Engineering.
- **BIM Core**: Revit (Expert), Navisworks, Scan-to-BIM, IFC, OpenBIM.
- **Management**: Product Management (CustDev, Figma UI/UX), Scrum, GTD, SLA/SLO Management.

💼 PROFESSIONAL EXPERIENCE

DOGMA | Lead BIM Solutions Engineer / Product Manager

2024 — 2026

- **Process Transformation**: Designed and implemented a BIM task management ecosystem in **Jira Service Desk** for 100+ engineers.
  - *Result*: 170+ closed cases, 38% portfolio focused on complex R&D/automation. Established transparent SLAs and automated reporting.
- **AI Integration**: Developed an **AI Assistant (RAG)** prototype for instant navigation through corporate knowledge bases and engineering standards (Python, LLMs).
- **Product Management**: Conducted 20+ CustDev interviews, prototyped UI/UX interfaces in **Figma** for internal plugins, reducing staff training time by 30%.

WE-ON Group | Senior BIM Coordinator (Structural)

2022 — 2024

- **Automation**: Developed a script suite that accelerated project parameter population **by 20x** (from 15 minutes to 45 seconds).
- **Team Leadership**: Implemented **GTD** and Scrum elements, enabling the structural team to close modeling tasks 40% faster within 6 months.

Severin Development | BIM Coordinator

2020 — 2021

- **Complex Projects**: Led coordination for a comprehensive information model (AR, Structural, MEP) of a **74-story skyscraper** in Moscow City.
- **R&D**: Developed workflows for **Scan-to-BIM** technology, using point clouds for real-time construction precision control.

MK3 Engineering | BIM Coordinator

2019 — 2020

- **Recognition**: My industrial project won **2nd place in the All-Russian BIM Technology Competition 2020**.
- **Quality**: Optimized clash detection algorithms, reducing documentation errors by 30%.

🏆 KEY ACHIEVEMENTS

1. **Silver Medalist**, All-Russian BIM Technology Competition (2020).
2. Built a **complete automation ecosystem** from scratch for a TOP-5 regional developer.
3. Developed and deployed the **first AI Assistant for BIM operations** in the region.

🎓 EDUCATION & SKILLS

- **BIM Management** (Professional Certifications).
- **Python for Data Science / AI Integration**.
- **Tech Product Management**.
